The Shining Path of Peru

Revolutionary Movements in Latin America

The Shining Path was one of the most brutal insurgencies ever seen in the Western Hemisphere. Political Violence and the Authoritarian State in Peru explores the devastating effects of insurgent violence and the state's brutal counterinsurgency methods on Peruvian civil society.

Shining Path

The jagged edges of South American societies attest to innumerable wars, relentless poverty, and a host of illicit activity that make the region a tumultuous brew of politics and military aggression. Peru in particular suffered one of the bloodiest civil wars in contemporary Latin American history during the 1980s and early 1990s, when the Sendero Luminoso, or "Shining Path," launched an assault to overthrow the national government. Lewis Taylor focuses here on an under-examined yet crucially important aspect of this pivotal conflict, the Northern Front in the northern highlands of Peru. Shining Path opens with a historical overview of Sendero Luminoso, moving from its origins to how it grew to sufficient size and strength to attempt revolt. Taylor then probes the development and progress of the Sendero Luminoso's revolutionary campaign from 1982 through 1992, analyzing the factors that catalyzed and sustained a war in which nearly 70,000 lives were lost. The nature of rural revolt and revolution is a central issue to this study, and Taylor investigates particular conflicts in the mountainous northern highlands as a vital case study for guerrilla warfare in harsh rural landscapes. The wars of the twenty-first century have been marked by the increasingly successful use of guerrilla warfare. Thus Shining Path is a timely analysis of the political and structural nature of such warfare and how it will transform the notion and actuality of war in years to come.

Art from a Fractured Past

In consideration of UN Resolution 1325 (which called for women's equal participation in promoting peace and security and for greater efforts to protect women exposed to violence during and after conflict), this volume takes stock of the current state of knowledge on women, peace and security issues, including efforts to increase women's participation in post-conflict reconstruction strategies and their protection from wartime sexual violence.
The Autobiography of Maria Elena Moyano

Studies the way in which literature, drama, film, and the visual arts contest the dominant narrative of national peace and reconciliation, as constructed by Peru's Truth and Reconciliation Commission.

The Shining Path: Love, Madness, and Revolution in the Andes

This volume covers the years between the guerillas' first attack in Peru in 1980 and President Fernando Belaunde's decision to send in the military to contain the growing rebellion in late 1982. It covers the strategy, actions, successes, and setbacks of both government and rebels.

The Peru Reader

In 2001, following a generation of armed conflict and authoritarian rule, the Peruvian state created a Truth and Reconciliation Committee (TRC). Pascha Bueno-Hansen places the TRC, feminist and human rights movements, and related non-governmental organizations within an international and historical context to expose the difficulties in addressing gender-based violence. Her innovative theoretical and methodological framework based on decolonial feminism and a critical engagement with intersectionality facilitates an in-depth examination of the Peruvian transitional justice process based on field studies and archival research. Bueno-Hansen uncovers the colonial mappings and linear temporality underlying transitional justice efforts and illustrates why transitional justice mechanisms must reckon with the societal roots of atrocities, if they are to result in true and lasting social transformation. Original and bold, Feminist and Human Rights Struggles in Peru elucidates the tension between the promise of transitional justice and persistent inequality and impunity.

When Rains Became Floods

When Rains Became Floods is the gripping autobiography of Lurgio Gavilán Sánchez, who as a child soldier fought for both the Peruvian guerrilla insurgency Shining Path and the Peruvian military. After escaping the conflict, he became a Franciscan priest and is now an anthropologist. Gavilán Sánchez's words mark otherwise forgotten acts of brutality and kindness, moments of misery and despair as well as solidarity and love.

Political Violence and the Authoritarian State in Peru

This is the first book in English to provide a truly comprehensive view of Shining Path (Sendero Luminoso), a major guerilla movement in Peru. Sendero’s Maoist principles first begin in the 1960s with a small band of supporters and no attention from the outside world, but later emerged as the most radical and dogmatic expression of Marxist revolution in the Hemisphere.

Women and War

The first comprehensive study of the Shining Path, the Maoist sect of indigenous people who waged a brutal war in Peru during the 1980s and early 1990s in an attempt to effect a Communist revolution.
The Shining Path and the Future of Peru

In Punk and Revolution, Shane Greene radically uproots punk from its iconic place in First World urban culture, Anglo popular music, and the Euro-American avant-garde, situating it instead as a crucial element in Peru's culture of subversive militancy and political violence. Inspired by José Carlos Mariátegui's Seven Interpretive Essays on Peruvian Reality, Greene explores punk's political aspirations and subcultural possibilities while complicating the dominant narratives of the war between the Shining Path and the Peruvian state. In these seven essays, Greene experiments with style and content, bends the ethnographic genre, and juxtaposes the textual and visual. He theorizes punk in Lima as a mode of aesthetic and material underproduction, rants at canonical cultural studies for its failure to acknowledge punk's potential for generating revolutionary politics, and uncovers the intersections of gender, ethnicity, class, and authenticity in the Lima punk scene. Following the theoretical interventions of Debord, Benjamin, and Bakhtin, Greene fundamentally redefines how we might think about the creative contours of punk subculture and the politics of anarchist praxis.

The Threat of the Shining Path to Democracy in Peru

In the aftermath of a civil war, former enemies are left living side by side—and often the enemy is a son-in-law, a godfather, an old schoolmate, or the community that lies just across the valley. Though the internal conflict in Peru at the end of the twentieth century was incited and organized by insurgent Senderistas, the violence and destruction were carried out not only by Peruvian armed forces but also by civilians. In the wake of war, any given Peruvian community may consist of ex-Senderistas, current sympathizers, widows, orphans, army veterans—a volatile social landscape. These survivors, though fully aware of the potential danger posed by their neighbors, must nonetheless endeavor to live and labor alongside their intimate enemies. Drawing on years of research with communities in the highlands of Ayacucho, Kimberly Theidon explores how Peruvians are rebuilding both individual lives and collective existence following twenty years of armed conflict. Intimate Enemies recounts the stories and dialogues of Peruvian peasants and Theidon's own experiences to encompass the broad and varied range of conciliatory practices: customary law before and after the war, the practice of arrepentimiento (publicly confessing one's actions and requesting pardon from one's peers), a differentiation between forgiveness and reconciliation, and the importance of storytelling to make sense of the past and recreate moral order. The micropolitics of reconciliation in these communities present an example of postwar coexistence that deeply complicates the way we understand transitional justice, moral sensibilities, and social life in the aftermath of war. Any effort to understand postconflict reconstruction must be attuned to devastation as well as to human tenacity for life.

Red April

The Shining Path (Sendero Luminoso) guerrilla movement emerged in Peru in the 1980s as the most radical and dogmatic expression of Marxist revolution in the Western Hemisphere. Led by a former philosophy professor at the University of Huamanga in Ayacucho, it developed its militantly orthodox Maoist principles from the mid-1960s onward with a small band of committed supporters, virtually ignored by the outside world. But after more than 20,000 deaths and $20 billion in damage in over a decade of relentless pursuit of the people's war, Sendero is now taken very seriously indeed. This is the first book in English to provide a truly comprehensive view of Shining Path. To do so, it brings together fifteen scholars, journalists, and development workers from Peru, the United States, and Europe who, from a variety of perspectives and disciplines, have studied one facet or another of Sendero. The underlying rationale for this edited study is that Shining Path forms such a distinct phenomenon that no single author can capture the full scope of the movement. Presented together, however, they succeed.
Intimate Enemies

Lost City Radio

A narrative history of the unlikely Maoist rebellion that terrorized Peru even after the fall of global Communism. On May 17, 1980, on the eve of Peru’s presidential election, five masked men stormed a small town in the Andean heartland. They set election ballots ablaze and vanished into the night, but not before planting a red hammer-and-sickle banner in the town square. The lone man arrested the next morning later swore allegiance to a group called Shining Path. The tale of how this ferocious group of guerrilla insurgents launched a decade-long reign of terror, and how brave police investigators and journalists brought it to justice, may be the most compelling chapter in modern Latin American history, but the full story has never been told. Described by a U.S. State Department cable as “cold-blooded and bestial,” Shining Path orchestrated bombings, assassinations, and massacres across the cities, countryside, and jungles of Peru in a murderous campaign to seize power and impose a Communist government. At its helm was the professor-turned-revolutionary Abimael Guzmán, who launched his single-minded insurrection alongside two women: his charismatic young wife, Augusta La Torre, and the formidable Elena Iparraguirre, who married Guzmán soon after Augusta’s mysterious death. Their fanatical devotion to an outmoded and dogmatic ideology, and the military’s bloody response, led to the death of nearly 70,000 Peruvians. Orin Starn and Miguel La Serna’s narrative history of Shining Path is both panoramic and intimate, set against the socioeconomic upheavals of Peru’s rocky transition from military dictatorship to elected democracy. They take readers deep into the heart of the rebellion, and the lives and country it nearly destroyed. We hear the voices of the mountain villagers who organized a fierce rural resistance, and meet the irrepressible black activist Maria Elena Moyano and the Nobel Prize–winning novelist Mario Vargas Llosa, who each fought to end the bloodshed. Deftly written, The Shining Path is an exquisitely detailed account of a little-remembered war that must never be forgotten.

The Shining Path of Peru

For ten years, Norma has been the on-air voice of consolation and hope for the Indians in the mountains and the poor from the barrios—a people broken by war's violence. As the host of Lost City Radio, she reads the names of those who have disappeared—those whom the furiously expanding city has swallowed. Through her efforts lovers are reunited and the lost are found. But in the aftermath of the decadelong bloody civil conflict, her own life is about to forever change—thanks to the arrival of a young boy from the jungle who provides a cryptic clue to the fate of Norma’s vanished husband.

Sendero Luminoso and the Threat of Narcoterrorism

The revolutionary war launched by Shining Path, a Maoist insurgency, was the most violent upheaval in modern Peru’s history, claiming some 70,000 lives in the 1980s–1990s and drawing widespread international attention. Yet for many observers, Shining Path’s initial successes were a mystery. What explained its cult-like appeal, and what actually happened inside the Andean communities at war? In How Difficult It Is to Be God, Carlos Iván Degregori—the world’s leading expert on Shining Path and the intellectual architect for Peru’s highly regarded Truth and Reconciliation Commission—elucidates the movement’s dynamics. An anthropologist who witnessed Shining Path’s recruitment of militants in the 1970s, Degregori grounds his findings in deep research and fieldwork. He explains not only the ideology and culture of revolution among the insurgents, but also their capacity to extend their influence to university youths, Indian communities, and competing social and political movements. Making Degregori’s most
important work available to English-language readers for the first time, this translation includes a new introduction by historian Steve J. Stern, who analyzes the author’s achievement, why it matters, and the debates it sparked. For anyone interested in Peru and Latin America’s age of “dirty war,” or in the comparative study of revolutions, Maoism, and human rights, this book will provide arresting new insights.

Reconceptualizing Security in the Americas in the Twenty-First Century

The Corner of the Living

Reopening Muslim Minds

This report examines the threat to Peruvian stability posed by the guerrilla group Sendero Luminoso (the Shining Path), and the degree to which this problem has been compounded by economic and political crisis. The author discusses the Shining Path, its origins, organization, the nature of its support, the movement's governing doctrine and theory of victory, and the character of its rural and urban campaigns. He then discusses those variables that are likely to determine the direction, growth, and prospects of the insurgency in the future; the capabilities and limitations of the Peruvian army; the nature of the country's current economic and associated political crises; the prospects for, and possible consequences of, a military coup; and the net strengths and weaknesses of the Shining Path. Finally, he considers what all of this could mean for the future of Peru.

Before the Shining Path

"Moyano's life exemplifies the overwhelming obstacles that poor barrio women experience not only in Peru but also in other third world countries. This autobiographical book adds important information to several different disciplines: Latin American politics, feminism, sociology, and current Peruvian history. . . . Edmisten's expertise is obvious in the scholarly introduction and readable translation."--Mary H. Wilgus, Campbellsville University Using María Elena Moyano's own words, the editor of this poignant story has re-created the voice of the martyred Peruvian activist. In 1992, at age 33, Moyano was assassinated by guerrillas of the revolutionary movement Sendero Luminoso (Shining Path). Her murder--a warning to others in the women's movement--galvanized the Peruvian people against Sendero Luminoso and its leader, Abimael Guzmán Reynosa. In part 1 of this work, Moyano traces the struggle of poor women in Peru and how they developed survival organizations such as the Vaso de Leche (Glass of Milk) and the communal kitchen feeding program to cope with poverty made worse by government austerity adjustments. Like other women, Moyano honed her leadership skills in these programs. She condemned the terrorist tactics of Sendero Luminoso and publicly proclaimed that they were not on the side of the poor. She also condemned the human rights abuses of the military and police. In part 2, Moyano relates the hardships of her impoverished childhood and describes the difficulties of achieving an education. She speaks also of her marriage and of childbirth, of the discrimination she faced, and of her gradual and steady rise to positions of authority within the popular women's movement and as deputy mayor and spokesperson for the 300,000 people of Villa El Salvador, a Lima barrio. As a woman of color, Moyano led a revolution of conscience within a larger revolution. Through this gracefully translated book, her voice continues to speak for all women who refuse to relinquish the struggle for dignity, freedom, and equal political participation. All royalties from this book will go to the Flora Tristán Center for the Peruvian Woman. Diana Miloslavish Tupac studied literature at the National University of San Marcos in Lima. She went to Mexico to participate in a study on ethnic minorities and human rights, and there she became a member of the Mexican Solidarity Committee for Guatemalan refugees. Upon her return to Peru, she rejoined the Flora Tristán Center for the Peruvian Woman. Patricia S. Taylor Edmisten is an independent scholar and
Conflicted Memory

Between 1980 and 1994, Peru endured a bloody internal armed conflict, with some 69,000 people killed in clashes involving two insurgent movements, state forces, and local armed groups. In 2003, a government-sponsored “Truth and Reconciliation Committee” reported that the conflict lasted longer, affected broader swaths of the national territory, and inflicted higher costs, in both human and economic terms, than did any other conflict in Peru’s history. Of those killed, 75 percent were speakers of an indigenous language, and almost 40 percent were among the poorest and most rural members of Peruvian society. These unequal impacts of the violence on the Peruvian people revealed deep and historical disparities within the country. This collection of original essays by leading international experts on Peruvian politics, society, and institutions explores the political and institutional consequences of Peru’s internal armed conflict in the long 1980s. The essays are grouped into sections that cover the conflict itself in historical, comparative, and theoretical perspectives; its consequences for Peru’s political institutions; its effects on political parties across the ideological spectrum; and its impact on public opinion and civil society. This research provides the first systematic and nuanced investigation of the extent to which recent and contemporary Peruvian politics, civil society, and institutions have been shaped by the country’s 1980s violence.

The Shining Path

Since 1980, Peru has been the scene of an escalating civil war. On the one hand, the Sendero Luminoso (“Shining Path”) maoists determined to destroy existing society. On the other, the Peruvian military, acknowledged as South America's worst human rights violators. Caught in the middle, and dying in their thousands each year, are the poor peasants and slum-dwellers of Peru. Victims also of a collapsing economy and radical austerity programme, the great majority of Peruvians are living a time of fear. This work looks at the astonishing success of Sendero Luminoso, examines the party's bizarre ideology and describes how its violence reaches every corner of Peruvian society. It also explains why "non-politician" President Fujimori has assumed dictatorial powers in a deal with the military

How Difficult It Is to Be God

Sixteenth-century Spanish soldiers described Peru as a land filled with gold and silver, a place of untold wealth. Nineteenth-century travelers wrote of soaring Andean peaks plunging into luxuriant Amazonian canyons of orchids, pythons, and jaguars. The early-twentieth-century American adventurer Hiram Bingham told of the raging rivers and the wild jungles he traversed on his way to rediscovering the “Lost City of the Incas,” Machu Picchu. Seventy years later, news crews from ABC and CBS traveled to Peru to report on merciless terrorists, starving peasants, and Colombian drug runners in the “white gold” rush of the coca trade. As often as not, Peru has been portrayed in broad extremes: as the land of the richest treasures, the bloodiest conquest, the most poignant ballads, and the most violent revolutionaries. This revised and updated second edition of the bestselling Peru Reader offers a deeper understanding of the complex country that lies behind these claims. Unparalleled in scope, the volume covers Peru’s history from its extraordinary pre-Columbian civilizations to its citizens’ twenty-first-century struggles to achieve dignity and justice in a multicultural nation where Andean, African, Amazonian, Asian, and European traditions meet. The collection presents a vast array of essays, folklore, historical documents, poetry, songs, short stories,
autobiographical accounts, and photographs. Works by contemporary Peruvian intellectuals and politicians appear alongside accounts of those whose voices are less often heard—peasants, street vendors, maids, Amazonian Indians, and African-Peruvians. Including some of the most insightful pieces of Western journalism and scholarship about Peru, the selections provide the traveler and specialist alike with a thorough introduction to the country’s astonishing past and challenging present.

**Peru and the United States**

**When Women Rebel**

*When Peruvian public intellectual José Carlos Agüero was a child, the government imprisoned and executed his parents, who were members of Shining Path. In The Surrendered—originally published in Spanish in 2015 and appearing here in English for the first time—Agüero reflects on his parents' militancy and the violence and aftermath of Peru's internal armed conflict. He examines his parents' radicalization, their lives as guerrillas, and his tumultuous childhood, which was spent in fear of being captured or killed, while grappling with the complexities of public memory, ethics and responsibility, human rights, and reconciliation. Much more than a memoir, The Surrendered is a disarming and moving consideration of what forgiveness and justice might mean in the face of hate. This edition includes an editor's introduction, a timeline of the Peruvian conflict, and an extensive interview with the author.*

**One Bright Shining Path**

*Sendero Luminoso or the “Shining Path” ranks among the most elusive, secretive, and brutal guerrilla organizations in the world. Once a radical uprising limited to the Andean highlands of Ayacucho, it is now a movement of national proportions that has woven itself into the fabric of Peruvian society. This book provides a comprehensive overview of this guerrilla organization and the Peruvian government's dilemma in dealing with it and the emergence of "narcoterrorism," a mutually beneficial relationship between the cocaine syndicate and Sendero Luminoso.*

**With Masses and Arms**

*Reveals and analyzes how Peru's military elite have engaged in a cultural campaign--via memoirs, novels, films, museums--to shift public memory and debate about the nation's recent violent conflict and their part in it.*

**Maoism**

*Miguel La Serna's gripping history of the Tupac Amaru Revolutionary Movement (MRTA) provides vital insight into both the history of modern Peru and the link between political violence and the culture of communications in Latin America. Smaller than the well-known Shining Path but just as remarkable, the MRTA emerged in the early 1980s at the beginning of a long and bloody civil war. Taking a close look at the daily experiences of women and men who fought on both sides of the conflict, this fast-paced narrative explores the intricacies of armed action from the ground up. While carrying out a campaign of urban guerrilla warfare ranging from vandalism to kidnapping and assassinations, the MRTA vied with state forces as both tried to present themselves as*
most authentically Peruvian. Appropriating colors, banners, names, images, and even historical memories, hand-in-hand with armed combat, the Tupac Amaristas aimed to control public relations because they insightfully believed that success hinged on their ability to control the media narrative. Ultimately, however, the movement lost sight of its original aims, becoming more authoritarian as the war waged on. In this sense, the history of the MRTA is the story of the euphoric draw of armed action and the devastating consequences that result when a political movement succumbs to the whims of its most militant followers.

State Under Siege

Using a framework that highlights how societal and international factors have shaped state capacities, Philip Mauceri examines Peru's volatile politics in the country's move from a developmentalist state to neoliberalism. He explores the challenges to state authority during the military regimes reformist experiment, arguing that they were intensified in the 1980s by poor planning and limited policy choices. He then examines how social and international conditions have influenced the Fujimori regime's attempt to retool the state along neoliberal lines. Using a framework that highlights how societal and international factors have shaped state capacities, Philip Mauceri examines the volatile politics in Peru from the Velasco through the Fujimori regimes as the country has moved from a developmentalist state to neoliberalism. Dr. Mauceri begins by reassessing the reformist experiment of the Peruvian military regime (1968-1980), arguing that it led to the development of unexpected challenges to state authority, both from new social actors and international financial organizations. During the 1980s, these challenges intensified, made even worse by poor planning and limited policy choices. The author then argues that the attempt by the Fujimori regime, backed by a neoliberal coalition, to retool the state indicates the degree to which state capacities are determined by social and international conditions. Mauceri also gives special attention to the relation between changing state power and social control. Separate chapters on the evolution of a Lima shantytown and the Shining Path examine how changes in state-society relations have had impacts at the grassroots level.

Punk and Revolution

*** WINNER OF THE 2019 CUNDILL HISTORY PRIZE SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON-FICTION 2019 SHORTLISTED FOR THE NAYEF AL-RODHAN PRIZE FOR GLOBAL UNDERSTANDING SHORTLISTED FOR DEUTSCHER PRIZE LONGLISTED FOR THE 2020 ORWELL PRIZE FOR POLITICAL WRITING*** ‘Revelatory and instructive… [a] beautifully written and accessible book’ The Times For decades, the West has dismissed Maoism as an outdated historical and political phenomenon. Since the 1980s, China seems to have abandoned the utopian turmoil of Mao’s revolution in favour of authoritarian capitalism. But Mao and his ideas remain central to the People’s Republic and the legitimacy of its Communist government. With disagreements and conflicts between China and the West on the rise, the need to understand the political legacy of Mao is urgent and growing. The power and appeal of Maoism have extended far beyond China. Maoism was a crucial motor of the Cold War: it shaped the course of the Vietnam War (and the international youth rebellions that conflict triggered) and brought to power the murderous Khmer Rouge in Cambodia; it aided, and sometimes handed victory to, anti-colonial resistance movements in Africa; it inspired terrorism in Germany and Italy, and wars and insurgencies in Peru, India and Nepal, some of which are still with us today – more than forty years after the death of Mao. In this new history, Julia Lovell re-evaluates Maoism as both a Chinese and an international force, linking its evolution in China with its global legacy. It is a story that takes us from the tea plantations of north India to the sierras of the Andes, from Paris’s fifth arrondissement to the fields of Tanzania, from the rice paddies of Cambodia to the terraces of Brixton. Starting with the birth of Mao’s revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People’s Republic today, this is a landmark history of global Maoism.
Unveiling Secrets of War in the Peruvian Andes

The Maoist guerrilla group Shining Path launched its violent campaign against the government in Peru's Ayacucho region in 1980. When the military and counterinsurgency police forces were dispatched to oppose the insurrection, the violence quickly escalated. The peasant community of Sarhua was at the epicenter of the conflict, and this small village is the focus of Unveiling Secrets of War in the Peruvian Andes. There, nearly a decade after the event, Olga M. González follows the tangled thread of a public secret: the disappearance of Narciso Huicho, the man blamed for plunging Sarhua into a conflict that would sunder the community for years. Drawing on extensive fieldwork and a novel use of a cycle of paintings, González examines the relationship between secrecy and memory. Her attention to the gaps and silences within both the Sarhuinos’ oral histories and the paintings reveals the pervasive reality of secrecy for people who have endured episodes of intense violence. González conveys how public secrets turn the process of unmasking into a complex mode of truth telling. Ultimately, public secrecy is an intricate way of “remembering to forget” that establishes a normative truth that makes life livable in the aftermath of a civil war.

Shining and Other Paths

*Badly needed updated history of Peruvian-US relations from the series edited by Lester Langley on Latin American-US relations. Traces evolution of diplomatic, military and economic relations between the two nations from independence to late in second ter*

Peru's Shining Path

Why were El Salvador’s FMLN and Peru's Shining Path able to mount such serious revolutionary challenges in the 1980s and early 1990s? And why were they able to do so despite the fact that their countries’ elected governments were widely considered democratic? These two guerrilla groups were very different, but both came close to success. To explain why, the author examines the complex interplay among political and economic factors, the nature of the revolutionary organization, and international actors. McClintock emphasizes that the end of the Cold War does not mean the end of revolutionary groups, and that the United States can play an important role in determining the outcome of future confrontations. The book concludes with practical policy options for the U.S. government as it looks to foster peace and democracy in the western hemisphere.

Andean Truths

Lima prosecutor Fâelix Chacaltana Saldâivar becomes the investigator in a mysterious murder, discovering links to the terrorist group, the Shining Path, and mass graves that expose the destruction and corruption of Peruvian society during the Fujimori regime.

Now Peru Is Mine

This book describes the major security challenges that face the Americas in the twenty-first century including terrorism, organized crime, drug trafficking, migration, and continually evolving geopolitical realities. It appeals to those interested in international relations, security studies, comparative politics, and Latin American studies.
The Surrendered

Born in 1921, Manuel Llamojha Mitma became one of Peru's most creative and inspiring indigenous political activists. Now Peru Is Mine combines extensive oral history interviews with archival research to chronicle his struggles for indigenous land rights and political inclusion as well as his fight against anti-Indian racism. His compelling story—framed by Jaymie Patricia Heilman's historical contextualization—covers nearly eight decades, from the poverty of his youth and teaching himself to read, to becoming an internationally known activist. Llamojha also recounts his life's tragedies, such as being forced to flee his home and the disappearance of his son during the war between the Shining Path and the government. His life gives insight into many key developments in Peru's tumultuous twentieth-century history, among them urbanization, poverty, racism, agrarian reform, political organizing, the demise of the hacienda system, and the Shining Path. The centrality of his embrace of his campesino identity forces a rethinking of how indigenous identity works inside Peru, while the implications of his activism broaden our understanding of political mobilization in Cold War Latin America.

Politics after Violence

From 1980 to 1992, Maoist Shining Path rebels, Peruvian state forces, and Andean peasants waged a bitter civil war that left some 69,000 people dead. Using archival research and oral interviews, Before the Shining Path is the first long-term historical examination of the Shining Path's political, economic, and social antecedents in Ayacucho, the department where the Shining Path initiated its war. This study uncovers rural Ayacucho's vibrant but largely unstudied twentieth-century political history and contends that the Shining Path was the last and most extreme of a series of radical political movements that indigenous peasants pursued. The Shining Path's violence against rural indigenous populations exposed the tight hold of anti-Indian prejudice inside Peru, as rebels reproduced the same hatreds they aimed to defeat. But, this was nothing new. Heilman reveals that minute divides inside rural indigenous communities repeatedly led to violent conflict across the twentieth century.

Peru

Peru's Truth and Reconciliation Commission not only documented the political violence of the 1980s and 1990s but also gave Peruvians a unique opportunity to examine the causes and nature of that violence. In Art from a Fractured Past, scholars and artists expand on the commission's work, arguing for broadening the definition of the testimonial to include various forms of artistic production as documentary evidence. Their innovative focus on representation offers new and compelling perspectives on how Peruvians experienced those years and how they have attempted to come to terms with the memories and legacies of violence. Their findings about Peru offer insight into questions of art, memory, and truth that resonate throughout Latin America in the wake of "dirty wars" of the last half century. Exploring diverse works of art, including memorials, drawings, theater, film, songs, painted wooden retablos (three-dimensional boxes), and fiction, including an acclaimed graphic novel, the contributors show that art, not constrained by literal truth, can generate new opportunities for empathetic understanding and solidarity. Contributors. Ricardo Caro Cárdenas, Jesús Cossio, Ponciano del Pino, Cynthia M. Garza, Edilberto Jimenez Quispe, Cynthia E. Milton, Jonathan Ritter, Luis Rossell, Steve J. Stern, Maria Eugenia Ulfe, Víctor Vich, Alfredo Villar

Feminist and Human Rights Struggles in Peru

How can Shining Path’s growth, and its mounting internal political crisis, be explained? Why are its perspectives so destructive to the working class in Peru
and worldwide? What is the alternative for workers and peasants fighting to defend their interests against the landlords and factory owners?

Corner of the Living

A fascinating journey into Islam's diverse history of ideas, making an argument for an "Islamic Enlightenment" today In Reopening Muslim Minds, Mustafa Akyol, senior fellow at the Cato Institute and opinion writer for The New York Times, both diagnoses “the crisis of Islam” in the modern world, and offers a way forward. Diving deeply into Islamic theology, and also sharing lessons from his own life story, he reveals how Muslims lost the universalism that made them a great civilization in their earlier centuries. He especially demonstrates how values often associated with Western Enlightenment — freedom, reason, tolerance, and an appreciation of science — had Islamic counterparts, which sadly were cast aside in favor of more dogmatic views, often for political ends. Elucidating complex ideas with engaging prose and storytelling, Reopening Muslim Minds borrows lost visions from medieval Muslim thinkers such as Ibn Rushd (aka Averroes), to offer a new Muslim worldview on a range of sensitive issues: human rights, equality for women, freedom of religion, or freedom from religion. While frankly acknowledging the problems in the world of Islam today, Akyol offers a clear and hopeful vision for its future.

Shining Path of Peru

High up on a steep mountainside in the Peruvian Andes and Indian shepherd boy watched his flock. Though he could never have imagined it, God had chosen him for a remarkable task. The divine plan for Romulo Saune's life would lead him out of the isolation and poverty of his remote mountain village to a place of leadership in His church, ultimately standing on the world stage with other international Christian leaders. God's plan would take a boy handicapped by a learning disability--nearly illiterate--and eventually place him at the head of a ream of scholars translating the Bible into the Quechua language. But at the light of the gospel penetrated the remote mountain regions of Peru, another and very different gospel began to spread. The Shining Path--one of the world's most violent terrorist groups--fanned out into the highlands in a ruthless campaign to coerce people to join their cause. They believed that Peru's hope lay solely in the Maoist vision of a socialist society. The Christians were just as convinced that Jesus Christ alone has the answers for the human heart and for the problems plaguing Peruvian society. A collision was inevitable. In the time of incredible suffering for the church, one man's heroism and commitment to Christ stands out. This is the story of his life.
